

Free Continuing Professional Development Opportunities (revised September 2016)

The North Carolina Infant-Toddler Program (N.C. ITP) Guidance for Personnel Certification applies to early intervention service coordination and special instruction services. Under this guidance, continuing professional development is required for all Infant, Toddler, and Family Certificate holders. The annual continuing professional development requirement is 10 contact hours (1.0 CEU) per year, to be obtained between January 1 and December 31 of the year. Contact hours/CEU credits must focus on infants and toddlers with or without disabilities, and their families. Contact hours must be obtained from an ITP approved entity from the ITP [Continuing Professional Development](#) list.

Things to Remember:

- Print out your certificate; do not rely on the site's database to store it.
- If the approved source does not offer a certificate upon completion, the individual should attach the following to their "NC ITP Documentation of Continuing Professional Development" form:
 - Available slides, handouts, documents, and other training materials associated with the training;
 - A statement about how the training supports evidence-based practices for infants and toddlers; and
 - A write-up of how you will apply the information learned from the training in your work.
- Keep in mind the differences in practices when viewing trainings from other states and agencies.
- Sessions taken from approved conferences must be related to infants and toddlers with or without disabilities, and their families.

Below is a list of free NC ITP approved trainings. This document is posted on the N.C. ITP website, www.bearly.nc.gov and updated every 6 months.

Name of Training	Date/Time	Registration/Obtaining IT Credit	Contact hours
